

WISPA Texas Open 2008

Houston, Texas
May 20-25

Introducing an opportunity to once again support squash and the 2008 Texas Open, a WISPA tournament featuring professional women squash players from around the world, scheduled for May 20-25, 2008 at The Downtown Club at the Met.

The HSRA is proud to introduce the Houston Squash Racquets Association Individual Patron Leadership Board to recognize individuals and families who wish to support squash throughout the year and make it possible to bring top worldwide talent to Houston. Corporate sponsorship may shoulder some of the burden, but it is the participation and support of the players and their families who really make the statement that squash is important in Houston.

The individuals and families of Houston squash know the value they receive from squash: the competitive opportunities of the city wide box ladder, the training and fitness of the game, and the cultural and social exchange of the players and competing in tournaments. Many squash players are passing on the legacy to the next generation and taking advantage of the HSRA's popular subsidized Junior's program.

The HSRA is inviting all players and supporters to be fully recognized for their commitment to the squash community. You and/or your family will be recognized throughout the year on the **Houston Squash Racquets Leadership Board** to be prominently displayed near the Championship Court (Court 2) at the Downtown Club at the Met.
